

Objectives and Principles

Objectives:

- To gain recognition and support for professional theatre in Canada from all levels of government.
- To support the development of Canadian theatre companies by sharing resources and knowledge.
- To develop working standards and relationships with professional theatre related associations and their members.
- To inform and connect theatres across Canada through a communications network.

Principles:

- Theatre makes an essential contribution to Canadian life on every level – social and economic.
- The experience of theatre should be readily accessible to Canadians.
- Theatre companies should be as diverse as the Canadian society they reflect.
- Theatre professionals deserve supportive working environments – structured enough to provide security, but flexible enough to encourage creativity, afford risk and accommodate change.
