

Venue Access

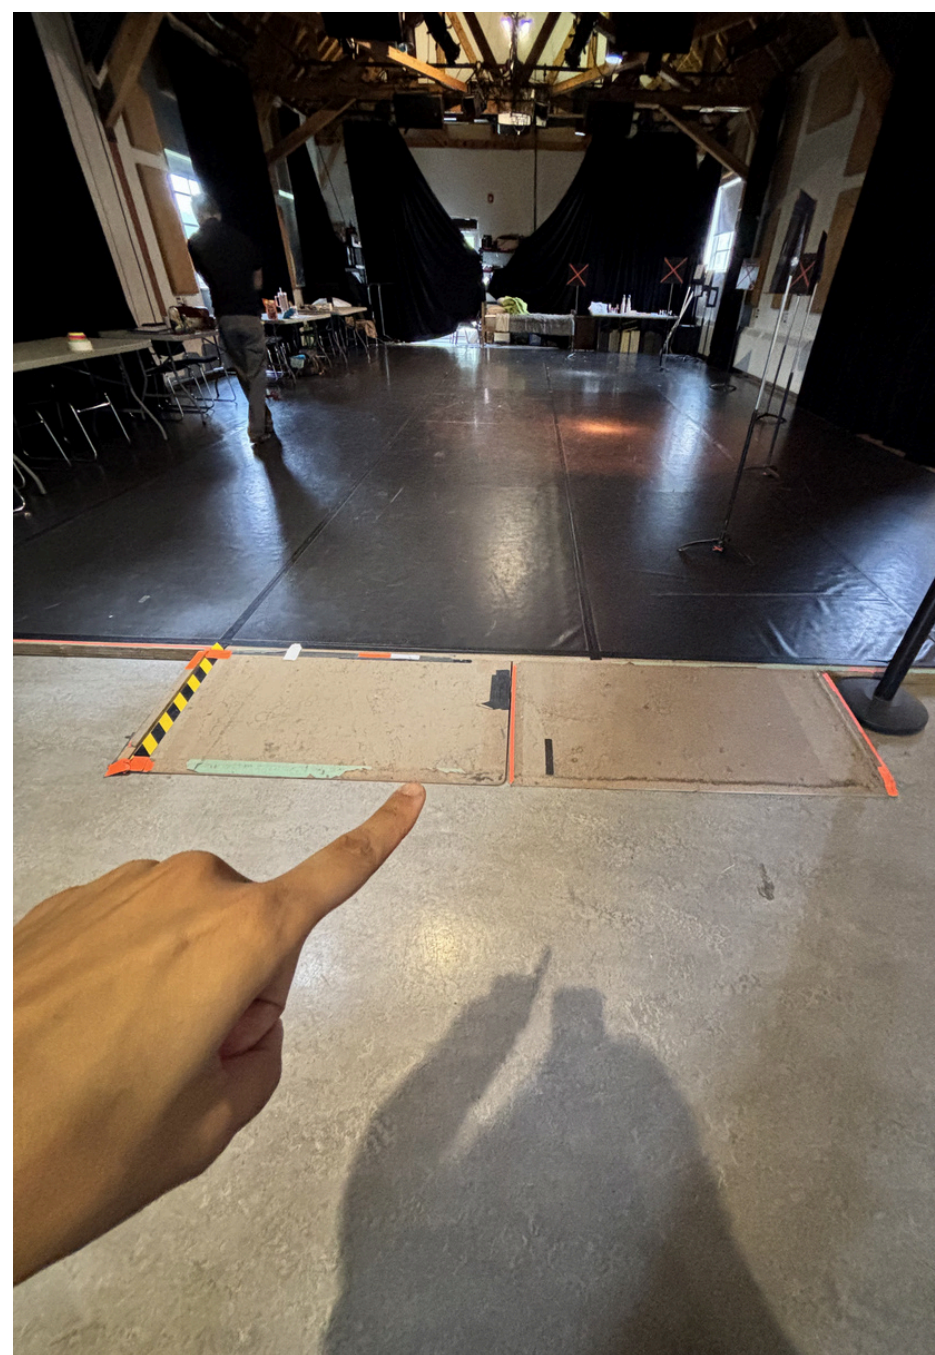

Old Fire Hall

The sidewalk slopes up from the parking area, and the front entrance is two single-width doors one after another into the main space.

The main space immediately upon entering Old Fire Hall has accessible washrooms with wide doorways, hand rails, but no button to open the doors. A small ramp allows for most mobility aids to ascend onto the slightly raised platform of the stage.

There is an Upstairs Space up just under 20 stairs, with a hand railing on the right hand side, but no elevators, and this space will not be essential for conference activities.
