

Venue Access

YukonStruct

The front doors of the YukonStruct building has two doors up front the sidewalk level, with automatic doors which can be opened from a button from inside and outside.

The Newmont Classroom is accessible by a single-width glass door, on the ground floor, which also has single stall washrooms. This room is adjacent to the NorthwestTel Event Space, and we will be using both these rooms at once.

The NorthwestTel Event Space is accessible by a single-width door from the corridor on the ground floor.

There is a second level mezzanine that is not accessible via elevator, only stairs, but that we will not be using at the conference.
