

Venue Access Yukon University

Our conference events will take place in Academic rooms AC2202 & AC2204, in Wing A of the Ayamdigut Campus of Yukon University.

To access these rooms with a wheelchair, use the main entrance to the university. To get to the main entrance on the furthest left of the roundabout you will see a large welcome sign. Follow this entrance to enter the university. There are two buttons to automatically open the doors, and they respond to a motion sensor.

Once inside, to find some of the accessible bathrooms there are some on the left which have an accessible stall this has hand rails on the two walls but no rail next to the toilet. The sinks have a recess underneath that may make it easier for some devices to go under it. There is some brail on the signage for the rooms. There are also elevators.
